

Activity Overview

The meeting is designed to enhance knowledge and increase competency in the treatment of cardiovascular disease.

Target Audience

This activity is designed for an audience of physicians, pharmacists, nurses, and physician associates.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Identify new methods to detect and quantify coronary atherosclerosis and how these techniques can be used in guiding preventive therapies.
- Implement tools, resources, and regulations that impact the cardiovascular business practice environment necessary to remain financially successful in an era of payment reform.
- Identify key advancements in congenital heart surgery and incorporate innovative techniques to enhance patient care.
- Describe the indications, procedural steps, and potential complications of transcatheter aortic valve replacement in the management of aortic stenosis.
- Summarize recent advances in the diagnosis, management, and clinical significance of ApoB, Lipoprotein(a), and Familial Chylomicronemia Syndrome in dyslipidemia.

Criteria for Success

A certificate of completion will be awarded based on the participant's attendance and completion of an online evaluation/claim credit form available at:

<https://akhcme.com/content/ohio-acc-2025-annual-meeting>

Please claim your credit by October 15, 2025.

If you have questions about this CE activity, please contact AKH Inc at JGoldman@akhcme.com.

CE credit provided by AKH Inc., Advancing Knowledge in Healthcare.

JOINTLY ACCREDITED PROVIDER™
